

Doctrinal Studies Bible Church

"Searchable" Database of Biblical Studies

TUTORIAL

Within this database, of Biblical Studies you'll find both Audio and textual lessons, categorized so that you can more effectively compliment your Spiritual development. You have the option to 'search' by either entering a 'Key Word' or by simply 'Browsing' through the inventory. As this database inventory is 'dynamic', i.e. continually growing in content we recommend that you return from time to time with your inquiries.

Let's do a little exercise, okay?

Example #1: Select **Keyword**, type in 'Marriage' and hit 'View Records'. The search results reflect several 'hits'. Now select **MORE INFO**, on any listing and it's **INFO** will be displayed. At the bottom of the window you'll see two selections, one for **AUDIO** and the other for **TEXT**, do you see the "**Listen to Audio - Part A, Part B**" Etc.? That indicates that this particular study is divided up into that many sections of study, each is approximately 30 minutes long. Below the **AUDIO** selection, is the **View Study Notes - [Click Here](#)** selection, which are the "**Study Notes**" associated with that particular Audio study.

So, **to view the notes while you listen to the study**, simply click on **Part A** and then select **[Click Here](#)** to view the notes. It's important that you do this in that order, **Audio first and then Study Notes**. Try it backwards and see for yourself.

Example #2: Another option would be to 'Browse' around a bit. Select **Browse** and select the 'down arrow' on "Study Day", select **Sunday** and hit **View Records**. The rest of the steps are the same as before.

Example #3: Select 'Browse' again but this time hit the 'down arrow' on **Subject**. What you're looking at are all of the 'subjects' that have been covered - throughout the entire database inventory. Select one and follow the same steps as before. **Note** that the **Subjects are 'sorted' alphabetically**. We did it this way so that you could better 'search' using this **Browse** function. But then, you could just as easily type in your '**Keyword**' and let the search engine do all the work for you, understand?

**May God, The Holy Spirit reveal the Truth, contained in His Word through these studies and may
your Spiritual Growth be an eternal adventure
IN CHRIST JESUS**
